PROJECT

Openmarket (ALLO) Is A Web3 Gateway Providing Direct Access To Crypto Premarkets, Decentralized OTC Trading, And Private Equity Deals. It Securely Connects Institutional-Grade Brokerage With The Decentralized Ecosystem Across Multiple Blockchains.

OVERVIEW

Our Objective Was To Architect An Interface That Balances The Technical Complexity Of Blockchain-Based Finance With Extreme Visual Clarity. We Focused On Making The Intricacies Of Premarket Assets And OTC Brokerage Accessible To New Participants While Maintaining The High-Performance Environment Required By Professional Traders.

Through A Clean And Structured Layout, Openmarket Simplifies The Execution Of Multi-Chain Transactions. By Organizing Complex Data Into Intuitive Deal Flows, The Platform Enhances User Confidence And Ensures Transparency In Every Trade Interaction.

TYPOGRAPHY

General Sans Was Selected To Balance Institutional Precision With A Clean Web3 Aesthetic. Its Geometric Structure And Rigorous Weight Hierarchy Provide Maximum Clarity For Complex Multi-Chain Data And OTC Deal Flows.
